USF Institutional Master Plan

The Draft IMP will be released to the UT community no later than January 6, 2012

In September, USF moved up its schedule to complete the IMP. Originally targeted for completion in June 2012, in August 2011 we changed to an earlier release in late November or December. However with holiday schedules and other impacts, we have not been able to finalize the draft. Still, we are close and we expect to meet the goal for release for January 6.

Regardless of this date change, the subsequent steps remain the same. When the draft is completed, the Plan will be posted on the USFNeighbor website and there will be a 30-day review period in which to submit written comments and questions. USF will respond to questions in writing. USF continues to plan to submit the final draft of the IMP to the City early in 2012.

Traffic Calming

The UTA traffic subcommittee met throughout the summer to finalize traffic calming strategies for the UT neighborhood. The Committee presented the outcome of that process to the UT community at a town hall meeting on October 5, 2011 in McLaren 251 on campus.

The resulting Traffic Calming Plan has been incorporated into the USF IMP.

USF and traffic consultants Fehr & Peers have shared the Traffic Calming Plan with SFMTA. Their initial response was positive, i.e. nothing appeared to be at odds with the City’s policies and procedures. MTA will review the Plan internally and advise us on the next steps.
Construction Updates
The construction of CSI continues and the project is on schedule for completion in May 2013.

Cahill will be working at the CSI site until 11am on Friday, December 23rd. There will be no work December 24th-26th. Also, there will be no work at the site from December 31 – Jan 2. Otherwise it is construction as normal including a concrete pour most likely next Thursday or Friday. Off haul is just about complete, very minimal this week and perhaps one truck next week. Rebar deliveries will continue, as we get ready for another large slab pour currently scheduled for Jan 11th.

USF Public Safety and SF Police
A reminder: **if you witness any unlawful activity in your neighborhood please call the San Francisco Police.** USF Public Safety is not currently empowered to act, even if the offense appears to involve USF students.

Deliveries and Logistics
We continue to work with vendors and contractors regarding delivery protocols and require them to follow proscribed routes to and from campus. The attached map is distributed to USF vendors.

Some of our UT neighbors provide photos and/or emails detailing dates and times of many of these issues which supported Pat Custer’s work with vendors. We appreciate their assistance.
