USF Institutional Master Plan
USF submitted the IMP to the San Francisco Planning Department on March 20, 2012. The Planning Department is still reviewing the Plan and has not yet sent comments or requests for clarification to USF. A date for a public hearing on the plan has not been set.
A copy of the IMP and its appendices can be found on the website USFNeighbor.com (click on Neighborhood Updates).

Traffic Calming
The University Terrace Traffic Calming Plan, which has been reviewed and endorsed by UTA and also incorporated into the USF IMP, was formally submitted to SF Municipal Transportation Agency on June 21, 2012. The plan is being reviewed there and SFMTA has not yet sent comments and requests for clarification to USF. A date for a public hearing on the plan has not been set.

Construction Updates
The construction of CSI continues and the project is on schedule for completion in May 2013.

In addition to the ongoing construction of CSI, USF has a number of summer projects underway on campus. The projects are mostly interior improvements such as renovations to the Geschke rare book room, the 3rd floor renovation at University Center, and the second phase of renovations at Phelan Hall.

Deliveries and Logistics
We continue to work with vendors and contractors regarding delivery protocols and require them to follow prescribed routes to and from campus.
We appreciate the help of our neighbors who provide photos and/or emails detailing dates and times of many of these issues.

For disturbances regarding trucks and deliveries, please contact:
Golden Gate Fence
Work has begun on the project to move the fence on the south side of Golden Gate, abutting the baseball field. The vines have been off the current fence and trees are pruned. Demo work is scheduled to start July 16th, with the installation of the new fence two weeks after that. Additional trees will be planted after the fence installation. We anticipate the project will be complete by mid-August. Please be advised that during some work phases, such as tree planting, parking on the eastern section of Golden Gate, south side, may be blocked off.

New Position – Off-Campus Housing & Community Relations
USF created a new staff position whose responsibilities include educating students about the neighborhood and their relationship with neighbors. Also the position is responsible for adjudicating disciplinary issues for off-campus students.

The new Assistant Director of Off-Campus Housing & Community Relations is Mr. Marc Bady, who started on campus in March, 2012. Some of the projects he is working on include working with USF Facilities Management on neighborhood cleanup initiatives, developing a program for Residence Hall Advisors to work with UTA Block Captains and, overall, to educate students on their role in the community and the USF code of conduct.

Neighborhood Trash Pick-up
Two students working for USF’s Environmental Health & Safety Office have been hired to collect trash in the UT neighborhood. Currently, they work in the neighborhoods around campus (focusing on UTA) on Mondays, Wednesdays, & Fridays. The schedule will be changed in the fall.
We plan to track the volume of trash as well as the effectiveness of the scheduling as the program progresses. Also, in cooperation with Marc Bady, we expect to augment the regular student staff with students who are assigned trash pickup as a disciplinary sanction.

Cell Antennae Installation
AT&T has proposed to install two wireless communication facilities on the USF campus: Site #1: Gleeson Library 2495 Golden Gate Avenue and Site #2: School of Education at 2350 Turk Boulevard. The proposed sites are unmanned facilities consisting of the installation of nine panel antennae on each building. The antennae will be mounted and screened on the rooftops of each respective building.

AT&T’s application for the installations on campus is downtown and in process. We have no information yet on a hearing date or details on the status of the application.

USF Public Safety and SF Police
If you witness any unlawful activity in your neighborhood please note:
For all off campus emergency issues please contact the San Francisco Police Department (911).
When an immediate response is needed (large parties, excessive noise) please call the San Francisco Police Department at (415) 553-0123 as well as USF Public Safety at (415) 422-4201 and supply as many details as possible.
USF Public Safety will attempt to coordinate with San Francisco Police Department to determine if USF students are involved and will respond as appropriate in accordance with the Memorandum of Understanding between USF and SFPD. USF Public Safety is not legally empowered to act on incidents occurring off-campus, even if the offense appears to involve USF students.
